

# Jeremy Johnson

Welcome to SHAPECiTY! We would like you to meet the mayor/creator Jeremy Johnson.

Born and raised in Shreveport, Jeremy graduated from LSU in graphic design and is currently a web developer at Pixel Fusion, one of the area's premier web design companies. Not content to rest on his heels, however, Johnson has a number of creative and kid-friendly ideas in the works.

"I've always been a bit of a cartoonist," Johnson said. He honed his skills by writing and illustrating a number of comics over the years, including strips for his high school and college newspapers.

"My latest creation, SHAPECiTYUSA.COM, is an entertainment and educational resource for children. I try to convey a sense of boldness and fun in my work." Visitors to the website will be greeted with an introduction to the characters and their world. Some of these characters include Olivia, the "well-rounded" circle who loves to share her favorite recipes, and Rex, the "unstoppable" octagon who offers safety tips to keep his buddies playing safe.

Johnson plans to use the website as a launching pad for bigger things. "I'd love to see SHAPECiTY plush figures or a television series for sure," he said. Additionally, he is putting the final touches on a number of children's book concepts.

With these presentations under his belt, look out for the work of Jeremy Johnson. If SHAPECiTYUSA.COM is any kind of indication, whatever he pulls out of his sleeve next is sure to be one-of-a-kind. **SB**
